
Environmental Policy

First Class Partnerships Limited recognises that its activities impact upon the environment both through its routine internal operations, its business development, and through its influence and effects on the wider community. It acknowledges a responsibility for, and a commitment to, protection of the environment at all levels. The Company is committed to continued efforts to:

- Promote environmental management policies and practices at every level and in every facet of its activity within the Rail Industry
- Shift all business travel from road to rail and continue to encourage and facilitate modes of transport by staff and associates which minimise environmental impact, and to apply environmentally friendly principles to the operation of business travel policy;
- Increase awareness of environmental responsibilities among staff and associates;
- Minimise waste and pollution and develop and operate environmentally sound waste management procedures;
- Continue to reduce the consumption of unnecessary resources and power
- Promote a purchasing policy which will give preference, as far as practicable, to those products and services which cause the least harm to the environment;
- Avoid wherever practical the use of environmentally damaging substances, materials and processes;
- Maintain a working environment in an environmentally sensitive way, having regard to protection of local natural habitats;
- Consider environmental factors in respect of the growth of the Business, seeking as far as is practical to reduce harmful environmental impacts;
- Work with other local, national and other Rail agencies as appropriate to promote environmental policies;

Progress in implementing this policy will be reviewed annually by the Company through its normal Management Board processes.
